SUPPOSE the Peace Commissioner ws The Times-Star, should decide not to hold the Philippines, what would be come of them? Certainly the auti-imperialists would not hand them back to Spalu for her to attempt to continue for nother long period a carnival of blood. If It was the duty of the American Re public to luterfere in behalf of human ity lu Cuba, certainly the anti-Imperlailsts would not have that same Republic ne a particeps crimiuls in Philip pine cruelties even more atrocious than were those lu Cuba. To hand Agus NALDO and his followers back to Spauls wolves would constitute a crime the equal of which caunot be found even in suguinary Spanish history. Don't give up the Philippines.

A Big Wheat Crop For 1899.

That's our prediction for Mason, Břacken and Robertson counties. We make no pretentions in the way of fortune telling; neither are we a prophet. We are simply gifted with a goodly amoust of "horse senses." We know that there will be a good wheat crop usat year, because the bulk of the wheat sown this fail will be sewn with Empire Diec Drills, and they make no mistake. Empire Drills are positive and absolute. They do exactly what you tell them to do. The Empire Diec Drill is the only positive feed drill made. It will feed the same quantity of wheat, rey, oats or barley with the same geer. Size of the grain cuts no figure with the Empire. You do not have to sow four or five area before you know what you are doing as with other drills. The Empire has telescoping steel continctors which never break or choke up as do the oli-fashiened rubber conductors. The Empire drag bars are fastened to the top of the bood, five linches higher than on other drills and trash will not choke and stop the Empire.

EMPIRE

will drill corn successfully. Remember, the Empire is a positive feed drill, and the only one on the market. The grain is gently lifted into the conductors by a round, sancer-shaped part which is made to rotate by a square shaft. Only so much grain can be littled and fed as this part will libid, and in order to sow a large or small quantity of grain per acrey on simply put a large or small open wheel on this shaft, which makes the round, sancer-shaped lift revoive faster or slower. Each cog wheel is numbered and guaranteed to sow an exact quantity of any grain per acre—wheat, ryo, costs, barkey. The Empire has tapering axies like a thimbe-skein wagon, and a peculiar wheel, a wheel that we will guarantee will not rull the boste in the years as on other drills—no, not in twenty-drew every. But the left is the standard of the property of the grain of the drills and the standards of 45 years experience. The Empire blee Drill. Ask your grandfather about it. Ask any old elities if he ever heard of an Empire Drill. I can show you an Empire Drill that is 31 years also had a National reputation—known and used the world over except Misson county. The Empire is not a ched in the property of the shown this drill to as least 80 farmers in the last two weeks and every one in enthusiastic in its praise. Call, examine this wooderful machine and courine yourself. It is a pleasure for us to exhibit it. Call and see us.

TWENTY-FIVE!

By Rev. H. C. Northcott at Ruggles Campground.

THE LEDGER, in its recent correspond ence from Ruggles Campground, made mention of the sermon preached by Rev. H. C. Northcott on the twenty fifth annireary. Thursday. August 4th.

Through the kindness of Rev. North-ott the sermon is published in full: TEXT-Numbers, xxiii:23, "What Hath God Frought?"

This passage was uttered by Balaam ophet of Moab, and was an expres the Prophet of Mond, and was an expres-sion of wonder at what God had done and would yet do for Israel. He knew their past by history, their future by inspiraa wonderful career of a marvelous

im his covenant, had sent Joseph, Jacob

and femily into Egypt, and with a mighty hand had emigrated their posterity three millions strong and brought them, guided by the pillar of cloud by day and of fire by night, to the borders of Moab. Now, oking forward, God showed to him is rael crossing the Jordan, capturing the walled city Jericho, followed by the conuest of Canaan and their establishmen as a Nation. Continuing the vision, he saw the Nation under David, their great-est King, destroying their enemies and enlarging their borders according to God's original promise, and David and his king dom honored by all surrounding Nations.
He beheld Solomon "in all his glory."
But doubtless he still saw further, and
the "star of Jacob" arose on his vision. and the world by his light pioneered to Christian civilization. Then it was to be said, "What Hath God Wrought" He was to have the glory of all that had been done. He is the great worker, and no great and good work has ever been or ever will be done without Him.

The text suggests the imminence of God in the effairs of the human race

Reason and revelation combine to teach the state God does govern this world and the people who are in it. Creation requires the Creator to control. It is not compatible with the goodness of God to onclude that God would isunch such a world into existence, with all its wealth of animals, men and angels, and leave it to drift to inevitable ruin without His care. His goodness prompts Him to gov care. His goodness prompts thim to goy with no apparent prospect for a situation error for the happiness of the creatures He of the happiness of the creatures He of the happiness of the creatures He has made. Being everywhere present at all times, He sees the needs of all and His did not sufficiently the history of the history when had done all we could and had failed.

But "Man's extremity was God's Op portunity." In the military of our meeting of put it into the heart of Brother not, simple and complicated plans. God tells us in His word that all He is from this word that all He is from the happiness of the history of the history was the history of the history was the history of the hi tells us in His word that all life is from Him and sustained by Him. "In Him we live and move and have our being." A friend puts his flagers on your wrist and feels there a ceaseless throbbing going on. He says to you, "Does this continue all the time!"
